

# 2020 US DONATION FORM

Your donation will be to Friends of the British Columbia Cancer Foundation U.S., on behalf of the Ride to Conquer Cancer® Presented by Wheaton Precious Metals™ benefiting BC Cancer Foundation.

## RIDER TO GET CREDIT FOR RIDE TO CONQUER CANCER FUNDRAISING

Name \_\_\_\_\_ Participant Number \_\_\_\_\_

Message to Rider \_\_\_\_\_ (for website recognition)

## DONATION IS COMING FROM (FOR US TAX RECEIPTING PURPOSES)

First Name \_\_\_\_\_ Last Name \_\_\_\_\_

Company Name (for business donations) \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_ ZIP \_\_\_\_\_

Email (to receive tax receipt by email) \_\_\_\_\_

Phone (mandatory for credit card payments) \_\_\_\_\_

In order to receive important Ride information including event updates, training and fundraising tips, and information on how funds raised are being used, you need to OPT-IN to communications. You may withdraw your consent and opt-out at any time.

Please send me Ride to Conquer Cancer updates, news and information and other commercial messages via (select all that apply):

- Email
- Robocall
- SMS message

AMOUNT OF CHEQUE OR CREDIT CARD (CHEQUE MADE OUT TO "FRIENDS OF THE BRITISH COLUMBIA CANCER FOUNDATION U.S.")

## CHOOSE YOUR LEVEL OF DONATION.

We're grateful for anything you can give. Every dollar counts in the fight to save lives!

- Honorary Rider** ..... **\$2,500**
- Crusader** ..... **\$1,500**
- Speedster** ..... **\$1,000**
- Explorer** ..... **\$500**
- Roadie** ..... **\$250**
- Free Wheeler** ..... (any amount) \$ \_\_\_\_\_

### **Payments Over Time**

\_\_\_\_\_ monthly payments of \$ \_\_\_\_\_  
(Monthly payments must be \$25 or higher and cannot extend beyond Dec. 31, 2020.)

**Please enter your name or message as you would like it to appear on the participant's Honour Roll.**

- I prefer not to show the amount of my gift on the participant's Honour Roll.
- I do not want my name to appear on The Ride website.

## SELECT BETWEEN TWO EASY PAYMENT OPTIONS.

### **Personal Cheque**

Single payment in full only. Please make cheques payable to: The Ride to Conquer Cancer. Include participant name and number on all cheques.

### **Credit Card**

Single or monthly payments. Your monthly statement(s) will read The Ride to Conquer Cancer. Payments commence immediately upon the processing of this form by the donation office.

Card Number                      CVC    Exp

Cardholder Name \_\_\_\_\_ Cardholder Signature \_\_\_\_\_  Visa  Mastercard  Amex

US donation form needs to be mailed to:

**Ride to Conquer Cancer  
C/o Donation Coordinator  
303-698 Seymour Street  
Vancouver BC V6B 3K6**

Or donate online at [conquercancer.ca](http://conquercancer.ca)

Donations can also be done over the phone by calling [888] 771-BIKE [2453].

Please note that US donation takes 2-4 weeks for processing

- Each cheque must come with its own donation form.
- All donations will be credited in US dollars. We cannot accept cash donations.
- All donations are 100% tax deductible, non-refundable and non-transferable.
- Ask your company if they provide matching gifts for donations.

**"Friends of the British Columbia Cancer Foundation U.S." is a 501(c) (3) registered and our EIN# 30-0067244**

# YOUR DOLLARS AT WORK

## IMPACT & USE OF FUNDS

Bringing together communities of cancer survivors, cyclists and supporters, the Ride to Conquer Cancer has raised more than \$96 million in 10 years, making it British Columbia's largest fundraiser.

The BC Cancer Foundation is the fundraising partner of BC Cancer. Funds raised ensure scientists and clinicians at BC Cancer have the support needed to advance the standard of cancer care through leading-edge research.

We know that one in two people in our province will face cancer in their lifetime. Together with our donors, the BC Cancer Foundation is changing the outcome for people facing cancer in British Columbia by connecting personalized care, innovative research and opportunities to give back.

With incredible leaps in science and technology, BC Cancer is breaking new ground in genomics, immunology and nuclear medicine. This is leading to prevention in high risk families, better treatments with fewer side effects and ultimately improved health and longevity for people impacted by cancer.

## KEY IMPACT HIGHLIGHTS

Funds from the Ride have:  
Supported more than 47 projects, investigating more than 50 different cancer types

## HUNDREDS OF PATIENTS TAKE PART IN POG

"There are people living today who would not be without Ride support. Donors provide each POG patient with information that has the potential to improve their immediate care." – POG researcher

First-of-its-kind, the Personalized Onco-Genomics (POG) Program allows world-leading scientists and doctors to map the genomic structure of an enrolled patient's cancer to help determine potential drug targets and treatment based on a biological rationale. Funds raised through the Ride are enabling BC Cancer to continue enrolling patients into this ground-breaking clinical study.

## PERSONALIZED TREATMENTS FOR BLOOD CANCERS AND REDUCED LYMPHOMA RECURRENCE

"Prior to 2000, there's a good chance I wouldn't be here. The prognosis for chronic myeloid leukemia was grim. Now, with a lot of research that was done, we've more than doubled the five-year survival rate, I would not be here without donors," – Kristen Armstrong, living with CML for four years.

## Tests in development will help prevent nearly half of all lymphoma patients from facing a relapse.

The Ride supports BC Cancer's Centre for Lymphoid Cancer and has helped researchers secure prestigious research grants that will change the outcome for many patients with lymphoma and other blood cancers in B.C. and beyond. Dr. Christian Steidl is a world-renowned scientist specializing in lymphoid cancer research at BC Cancer and was recently awarded a \$1.5 million investment through a prestigious Allen Distinguished Investigator Award, the first Canadian awardee. The Allen Institute was established by the late Paul G. Allen, co-founder of Microsoft, who passed away from lymphoma earlier this year.

## ON TRACK TO PREVENT 50% OF OVARIAN CANCERS

Ride dollars support BC Cancer's OVCARE team and its significant strides in research and care— a world leader in advancing prevention and care for women facing all forms of gynecologic cancers. **The team is on a bold mission to cut incidences of ovarian cancer in half by 2034.** Ride funds have already contributed to moving the team closer to this goal, with two world-first prevention strategies; the removal of fallopian tubes during routine hysterectomy, and hereditary genetic testing at the time of diagnosis, already being deployed across B.C.

## BC CANCER BECOMES CANADIAN NUCLEAR MEDICINE HUB FOR PROSTATE CANCER

Ride funds are fueling a new, world-leading Molecular Imaging and Therapeutics program at BC Cancer spanning research and development of cutting-edge radiopharmaceuticals through to clinical trials. Over the next five years, the program will expand its infrastructure, scale-up scientific development of radioactive isotope treatments and launch a series of game-changing clinical trials.

"Research and innovative trials will give prostate cancer patients, like me, and eventually many other people facing other cancer types, hope—and ultimately, more time," says Raymond Band – prostate cancer survivor who has faced multiple relapses since 1994.

## ADVANCING RESEARCH AND CARE IN THE NORTH

Patients in northern B.C. have greater support to overcome health and financial challenges thanks to Ride funds, specifically from the devoted Wheelin' Warriors of the North team.

"What comes along with a cancer diagnosis are a lot of other challenges. I've received gift cards for groceries and gas that have just made my day and takes the stress away," Lori McDonald, current patient at BC Cancer – Prince George.

Funds are also supporting a precision radiation therapy hub at BC Cancer – Prince George. "Precision radiation therapy holds the potential to minimize side effects. By establishing a research program and acquiring vital new equipment, we can have a direct impact for patients in the North and across B.C.," says Dr. Robert Olson, radiation oncologist.

## PURCHASED TWO STATE-OF-THE-ART PET/CT SCANNERS

Funds raised through the Ride supported the purchase of two PET/CT scanners – one in Victoria and one in Kelowna. These machines will bring world-class diagnostics closer to home for thousands of patients in need and will help to reduce wait times across the province.

## WORLD'S LARGEST BREAST CANCER STUDY

Ride dollars have helped place BC Cancer's breast team on the world stage! The team, led by Dr. Samuel Aparicio identified 10 unique sub-types of breast cancer, decoding the genomic structure of the most deadly of these and proving that cancer has the ability to change over time and in response to treatments. Today, patients can enter B-PRECISE, the world's largest breast cancer study where tumour tissue is collected the time of diagnosis to conduct DNA sequencing. The aim is to match genomic mutations in the tumours with known or new combinations of therapies, test and develop tailor-made cancer drugs targeted for each unique cancer and avoid treatment resistance.

## ADVANCED IMMUNOTHERAPY TREATMENT DEVELOPMENT

Funds support incredible progress for BC Cancer's Immunotherapy research program, with the team gearing up to bring these home-grown, cutting-edge treatments to patients. The Ride will help make T cell therapy a reality for cancer patients facing leukemia, lymphoma, and gynecologic cancers in B.C.

## ENHANCED BRAIN CANCER CARE

Brain cancer care in B.C. has been transformed, enabling patients to be seen by neuro-oncology specialists quickly and effectively, in one visit and at one site.

At BC Cancer – Victoria a stereotactic radiotherapy program for brain cancer started treating patients with multiple metastases in early 2016. These individuals can benefit from modern treatment technology, which allows highly accurate (1-2 mm precision), efficient and effective radiotherapy treatment.

Through the Personalized Onco-Genomics Program (POG) 61 brain cancer patients have been enrolled, 41 are pediatric; where the genomic profile of their cancer is analyzed to provide highly personalized treatment planning.
